REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

References Stantchev (6,438,173), Shattil (US 2004/0141548), and Sampath (US 2005/0117677) are cited because they are pertinent to the OFDM receiver that receives FSK modulated signals. However, none of the cited references teaches or suggests, in combination, the arrangements of an OFDM demodulator having an input connected to receive temporal samples of a received FSK signal, and outputs representing the FSK signal in a frequency domain; means for determining an energy for the outputs; and means for comparing the energies of each output to recover a data stream from the FSK signal in order to form an OFDM receiver for detecting FSK symbols in a communications network as recited in claim 1 and the corresponding method claim 9 and further limitations of the dependent claims 2-8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The IDS filed on 7/22/2003 is not considered (see attached copy of the Form PTO-1449) because it was not signed. It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this
